Executive Summary

Solutions That Empower People, Inc. or “STEP” has been the designated community action agency responsible for carrying out anti-poverty work in Franklin and Patrick counties of Virginia since 1966. It is our Mission to work with our community partners to facilitate solutions that empower people to overcome their barriers to economic, educational and developmental success. With this objective in mind, and as the needs of these communities have changed and new opportunities became available, STEP has evolved to meet those needs through an array of programs and services that focus on early childhood education (Early Head Start and Head Start); youth services (LIFES Academy and Project Discovery); senior services (Meals on Wheels, transportation); supportive services (re-entry, homelessness prevention); housing services (rental assistance and weatherization); and financial services (tax preparation assistance). In addition to the mandated service areas of Franklin and Patrick counties, STEP provides certain programs and services in the counties of Bedford, Henry, and Pittsylvania as well as in the cities of Martinsville and Danville. STEP has an annual budget of \$4.7 million; has about 100 employees; is assisted by more than 200 volunteers; and serves more than 3,400 people annually.

Every three years STEP conducts a comprehensive community needs assessment to identify the root causes of poverty in our community. The results of this study set the criteria and priorities for determining the most effective means of utilizing the resources entrusted to us in order to help our clients break the bonds of poverty and build a better life for themselves and their families, sustainably.

We would like to thank everyone who participated in this study including all of the survey and interview participants, our staff, our Board of Directors, and our community collaborators for their commitment and goodwill throughout this undertaking.

*SPECIAL ACKNOWLEDGEMENT OF
APPRECIATION TO:*

Peg Wimmer, Assistant Professor of
Sociology, Ferrum College

Daronte Rollins, BSW, Ferrum College

Approved by STEP Board of Directors: February 21, 2019

Summary of Critical Community Needs

The research presented in the following pages led to the conclusion that the top three needs of the each of the communities that STEP serve are:

Franklin County

1. Education/youth services
2. Transportation
3. Affordable housing

Patrick County

1. Transportation
2. Affordable housing
3. Child care

Henry County

1. Child care
2. Affordable housing
3. Transportation

Collectively, these needs are represented as:

1. Safe, affordable, energy efficient, and accessible housing
2. Affordable childcare
3. Transportation
4. Education/youth services

This study also identified critical needs in the areas of health care and employment. These service gaps are currently being addressed by other community collaborations. As such STEP directs its energies and resources at overcoming the unmet or unaddressed needs identified above.

Assessment and Planning Process

Steering Committee

A Steering Committee consisting of the Executive Committee of the Board of Directors and the Executive Director was formed in the summer of 2017. The Steering Committee went about its work with input from all STEP program directors. The Steering Committee met several times and was responsible for:

- Providing leadership, direction and oversight of the community needs assessment and strategic planning processes.
- Ensuring that stakeholders and a robust cross section of community and low-income representatives were given the opportunity to articulate the needs that they have experienced or observed and participate in the process of establishing related goals, objectives, and strategies for meeting or overcoming them.
- Establishing timelines for the completion of tasks.
- Analyzing the critical issues identified by the needs assessment surveys and interviews.
- Making recommendations to the Board of Directors regarding priorities, goals and objectives, necessary resources, comprehensive operational strategies, intended outcomes and measurements for evaluating overall effectiveness.
- Ensuring the goals and strategies presented to the Board of Directors are consistent with the agency's vision, mission and values, and address the needs of the community as effectively, efficiently and holistically as possible.
- Ensuring these processes and outcomes are consistent with the expectations of the Virginia Office of Volunteerism and Community Services, the requirements of the Community Services Block Grant (CSBG) Act, the National Community Action Network Theory of Change which guides all Community Action activities, and follows the format and principles of the Results Oriented Management and Accountability (ROMA) system.

The strategic planning process was facilitated by Monica Jefferson of the Virginia Housing Development Authority.

Community Needs Assessment

Population Demographics and Characteristics

Population History and Projections

Population	United States	Virginia	Franklin County	Patrick County	Henry County
Projected Population (2023)	339,665,400	8,809,262	57,908	17,048	49,119
Estimated Population (2018)	328,033,100	8,532,967	56,476	17,552	50,819
Census Population (2010)	308,745,500	8,001,024	56,159	18,490	54,151
Census Population (2000)	281,399,000	7,074,062	47,287	19,408	57,931
Projected Annual Growth (2018-23)	0.7%	0.6%	0.5%	-0.6%	-0.7%
Historical Annual Growth (2010-18)	0.8%	0.8%	0.1%	-0.6%	-0.8%
Historical Annual Growth (2000-10)	1.0%	1.3%	1.9%	-0.5%	-0.7%

Source: U.S. Census Bureau

Franklin County’s population is experiencing modest growth that is essentially in line with the state and national averages. However the population in Patrick and Henry counties is slowly declining. These losses, not uncommon to rural communities, stem from economic recession, increased competition, and the shifting of manufacturing jobs overseas.

Race as a percent of population in 2017

Race	United States	Virginia	Franklin County	Patrick County	Henry County
White	73.0%	68.4%	89.0%	92.0%	72.0%
Black or African American	12.7%	19.2%	8.0%	5.5%	22.1%
American Indian and Alaska Native	0.8%	0.3%	0.2%	0.5%	0.1%
Asian	5.4%	6.2%	0.4%	0.3%	0.7%
Native Hawaiian and Other Pacific Islander	0.2%	0.1%	0.0%	0.0%	0.0%
Some other race	4.8%	2.4%	1.1%	0.8%	3.1%
Two or more races	3.1%	3.5%	1.3%	1.0%	2.0%

Source: REGIS Online

While the African American population in Henry County is comparable to the state average, STEP’s service area as a whole is predominantly Caucasian. The representation of non-white or African American races is generally well below state and national averages.

Age as a Percent of Population in 2017

Age	United States	Virginia	Franklin County	Patrick County	Henry County
Median age (years)	37.2	38	46	49.2	46.8
Under 5 years	6.5%	6.1%	4.7%	4.4%	4.8%
5 to 9 years	6.6%	6.2%	5.9%	4.8%	5.3%
10 to 14 years	6.7%	6.2%	5.2%	5.0%	6.0%
15 to 19 years	7.1%	6.5%	6.4%	5.4%	5.3%
20 to 24 years	7.0%	7.0%	5.7%	5.0%	5.5%
25 to 34 years	13.3%	13.9%	10.2%	8.6%	9.9%
35 to 44 years	13.3%	13.1%	10.6%	11.2%	10.8%
45 to 54 years	14.6%	14.0%	14.2%	14.9%	14.8%
55 to 59 years	6.4%	6.7%	7.7%	8.9%	8.1%
60 to 64 years	5.4%	5.9%	8.2%	7.1%	7.0%
65 to 74 years	7.0%	8.4%	13.2%	14.0%	12.5%
75 to 84 years	4.3%	4.1%	6.8%	7.7%	7.7%
85 years and over	1.8%	1.7%	1.4%	2.8%	2.3%

Source: U.S. Census Bureau

STEP’s service area has a high concentration of senior citizens. The median age of area residents is nearly 10 years older than the state and national averages. Further, according to the University of Virginia, the Commonwealth’s elderly population (65 or older) is expected to double by 2030 and will account for about 1 in five Virginians (www.statchatva.org).

Gender as a Percent of Population in 2017

Sex	United States	Virginia	Franklin County	Patrick County	Henry County
Male	49.2%	49.2%	49.1%	49.4%	48.2%
Female	50.8%	50.8%	50.9%	50.6%	51.8%

Source: U.S. Census Bureau

The ratio of males to females in STEP’s service area essentially mirrors the state and the country.

Veteran Population in 2017

Age	United States	Virginia	Franklin County	Patrick County	Henry County
Veterans	18,939,219	688,536	4,209	1,330	4,149
Veterans as a % of population	5.8%	8.1%	7.5%	7.4%	8.0%

Source: U.S. Census Bureau

There are slightly more veterans per capita in both the Commonwealth and STEP’s service area than in the remainder of the nation.

State of Poverty in Service Areas

Comparing 2016 Poverty Rates

	United States	Virginia	Franklin County	Henry County	Patrick County	Martinsville
Poverty Rate	12.7%	11.0%	13.2%	18.4%	17.9%	24.1%

Source: U.S. Census Bureau

The poverty rate in all of STEP’s service area is higher than the state and national averages. The poverty rate in Martinsville, which was hit particularly hard by losses in the apparel and furniture manufacturing industries, is nearly twice that of the nation.

Poverty by Age in 2017

Age	United States	Virginia	Franklin County	Patrick County	Henry County
Under 5	22.5%	16.2%	26.5%	50.6%	29.8%
5-17	19.5%	14.4%	21.2%	38.4%	33.1%
18-34	18.1%	15%	19.1%	22.3%	25.4%
35-64	11.2%	8.3%	13%	15.1%	16.3%
65 and over	9.3%	7.4%	8.2%	12%	8.2%

Source: U.S. Census Bureau

All of STEP’s service area has poverty rates higher than national and state levels for every age group under sixty five. Patrick and Henry counties have particularly high percentages of children living in poverty.

Children in Poverty in our Community

Location	2010	2011	2012	2013	2014	2015	2016
Franklin County	22%	22%	21%	23%	24%	19%	18%
Henry County	27%	34%	29%	30%	31%	31%	29%
Martinsville	36%	37%	39%	39%	35%	37%	35%
Patrick County	28%	27%	27%	28%	32%	26%	29%
Virginia	13%	14%	15%	15%	15%	15%	15%
United States	19%	20%	21%	22%	22%	22%	21%

Source: County Health Rankings, 2018

The preceding chart shows the levels of children that live in poverty in STEP’s service area. Franklin is the only county that has significantly decreased the number of children living in poverty over the last few years. Poverty rates among children in Henry and Patrick counties and the City of Martinsville are essentially stagnant at about twice the state average. Poverty has a profound impact on children. Studies show that nearly 30% of children in poverty do not complete high school (Urban Institute), have increased incidents of psychiatric disorders, reduced levels of social and academic functioning, and a higher likelihood of chronic physical health problems (Child Fund International).

Poverty by Gender in 2017

Sex	United States	Virginia	Franklin County	Patrick County	Henry County
Male	13.3%	10%	13.6%	19.5%	17%
Female	15.8%	12.3%	16%	21%	21.2%

Source: U.S. Census Bureau

Poverty is more prevalent among women than men. The percentage of people living in poverty in STEP’s service area is higher than the national and state averages.

Poverty by Race/Ethnicity in 2017

Race/Ethnicity	United States	Virginia	Franklin County	Patrick County	Henry County
White	12%	8.9%	14%	19.6%	16.4%
Black or African American	25.2%	19.4%	18%	20.5%	21.4%
American Indian and Alaska Native	26.8%	13%	0%	48.6%	74.2%
Asian	11.9%	7.5%	0%	18%	8.4%
Other	23.8%	17.6%	68%	50.4%	59.9%
Two or more races	18.4%	13.2%	42%	44.4%	32.4%

Source: U.S. Census Bureau

African Americans experience poverty at about twice the rate as White individuals in both the nation and the state. In STEP’s service area poverty is more equally represented among these races. People who identify as American Indian, Alaskan Native, or an uncategorized race, about 2% of the service area population, generally experience poverty at far higher rates (however given the sample size this representation may be statistically misleading).

Poverty Among Veterans in 2017

	United States	Virginia	Franklin County	Patrick County	Henry County
Veterans below the poverty level	1,302,166	33,881	385	57	288

Source: U.S. Census Bureau

There are 730 veterans living in poverty in STEP’s service area.

Families in Poverty in 2017

	United States	Virginia	Franklin County	Patrick County	Henry County
Married-couple family	6.7%	4.3%	8.5%	10.2%	10.3%
Female householder, no husband present	31.1%	26.5%	30.9%	45.1%	36.3%
Other living arrangements	24.3%	21.1%	27.6%	28.3%	29%

Source: U.S. Census Bureau

The percentage of families living in poverty is exponentially greater in single parent households than married-couple families. According to the U.S. Census Bureau, in 2017, out of about 12 million single parent families with children under the age of 18, more than 80% were headed by single mothers. STEP’s service area has a higher rate of families in poverty under each living situation than the state average.

Housing by Service Areas

STEP produces an annual Point In Time (PIT) Survey for Franklin, Patrick, and Henry counties to collect primary data on homelessness. This data is only collected one day per year. It can be very difficult to obtain an accurate count but it allows a snapshot of the challenge at a given time.

2018 Homelessness PIT Survey

	Franklin County	Patrick County	Henry County	Total
HOMELESS	16	2	9	27
HOUSEHOLDS	10	2	7	19
ADULTS	10	2	7	19
CHILDREN	6	0	0	6

Source: STEP Program Data

The U.S. Department of Housing and Urban Development (HUD) advises that for every homeless individual identified in a traditional PIT count, there are an additional 4.5 homeless people over the course of one year. Applying this multiplier, the estimated number of actual homeless in STEP’s service area is as follows.

2018 Homelessness PIT Survey (multiplier applied)

	Franklin County	Patrick County	Henry County	Total
HOMELESS	72	9	40.5	121.5
HOUSEHOLDS	45	9	31.5	85.5
ADULTS	45	9	31.5	85.5
CHILDREN	27	0	0	27

Source: STEP Program Data

STEP estimates that there are currently about 85 homeless households including 27 children in our service area.

Domestic Violence Shelter and Transitional Housing PIT Surveys

	2016	2017	2018
Clients	34	79	70

Source: STEP Program Data

Emergency Community Shelters

	Resource Name	Type of Assistance	Type of Shelter
Franklin County	Family Resource Center	Domestic Violence	24 Beds
	Red Cross	Fire Victims	Hotel Accommodations
Patrick County	Red Cross	Fire Victims	Hotel Accommodations
Henry County	Southside Survivor Resource Response Center	Domestic Violence	14 Beds
	Community Dream Center	Transitional Housing	8 Beds
	Salvation Army	Cold Weather	Cots, open Nov. 1- March 31 (when predicted temperatures below freezing)
	Red Cross	Fire Victims	Hotel Accommodations

Source: STEP Program Database

Unsafe and Unsanitary Housing in 2017

	United States	Virginia	Franklin County	Patrick County	Henry County
Lacking complete plumbing facilities	0.4%	0.3%	0.2%	0.6%	0.2%
Lacking complete kitchen facilities	0.8%	0.6%	0.3%	0.3%	0.2%

Source: U.S. Census Bureau

Franklin, Patrick, and Henry counties are generally safer and more sanitary than the state and national averages. The exception to this is the high number of homes lacking plumbing in Patrick County. According to a 2006 study by Funders' Network, unsafe and unhygienic housing can “negatively affect a child’s physical, emotional, and cognitive development.”

Foreclosure Rate in 2017

	United States	Virginia	Franklin County	Patrick County	Henry County
Percent of housing units foreclosed on in 2017	0.04%	0.03%	0.02%	0.02%	0.02%

Source: RealtyTrac (2018)

The foreclosure rate in STEP’s service area is slightly lower than the state and national averages. Foreclosure rate has a long term effect on stability of the housing market. STEP provides programs and services to those who are homeless or are in danger of becoming homeless.

Housing Cost Burden in 2016

	United States	Virginia	Franklin County	Patrick County	Henry County
Percent of cost-burdened household with income at or above the median	36.53%	21.60%	12.19% - 18.74%	0.88% - 7.08%	7.09% - 12.18%

Sources: Statista, Virginia Center for Housing Research, Jefferson College Health Sciences

HUD defines cost-burdened families as those “who pay more than 30 percent of their income for housing.” The percentage of cost burdened households in STEP’s service area is lower than the state and national averages. Franklin County has the highest rate of households experiencing housing cost burden. Affordable housing frees up income for other expenses such as childcare, food, and the like. Additionally, the number of seniors with mortgages has increased throughout the state (U.S. Department of Housing and Urban Development).

A public housing program has been established by the United States government to provide housing for low-income families, disabled persons, and the elderly. These individuals or families must meet certain eligibility requirements to participate in the program and may be required to pay a nominal amount of rent. All of the public housing in STEP’s service area is full which is indicative of the demand exceeding the supply.

Public Housing

Unit Name	City	# Units	Vacancies	Type of Assistance

Source: Internal Program Data

* Multi-Family = Adults with Children and Elderly/Disabled

Section 8 Housing

	2014	2015	2016	2017
Franklin County	82	87	83	79
Patrick County	68	72	70	63
Total	150	159	153	142

Source: Internal Program Data

While the number of Section 8 rental assistance vouchers that STEP is authorized to fund and administer annually ebbs and flows based on available funding, STEP currently administers about 190 (collectively) in Franklin and Patrick counties. The window to apply for this assistance typically only opens about every four to five years (for about four hours at a time) therefore securing this aid can be a challenge. Currently STEP has 192 additional families on a waiting list for service.

Weatherization

	2014	2015	2016	2017
Franklin County	19	19	23	30
Patrick County	2	2	4	4
Total	21	21	27	34

Source: STEP Program Data

The U.S. Department of Energy (DOE) Weatherization Assistance Program reduces energy costs for low-income households by increasing the energy efficiency of their homes, while ensuring their health and safety. Through weatherization improvements and upgrades funded by the DOE (with supplemental funding provided by the Low Income Energy Assistance Program (LIHEAP) and American Electric Power (AEP), these households save an average of \$283 a year according to a national evaluation of the program. These funds can then be reallocated to pay for other critical living expenses. STEP has received regular increases in funding for its Weatherization program. Current funding levels allow for the upgrading of about 50 homes annually (a significant increase over the 2017 funding shown above).

Education by Service Area

Educational Attainment for Populations 25 and Older

	Educational Attainment	United States	Virginia	Franklin	Patrick	Henry
2013	High School Graduate or Equivalency	28%	25%	34%	34%	35%
	Some College, No Degree	21%	20%	23%	22%	21%
	Associate's Degree	8%	7%	7%	9%	10%
	Bachelor's Degree	18%	21%	13%	7%	8%
	Graduate or Professional Degree	11%	15%	7%	4%	4%
2017	High School Graduate or Equivalency	27%	24%	33%	34%	34%
	Some College, No Degree	21%	20%	23%	21%	22%
	Associate's Degree	8%	8%	9%	9%	11%
	Bachelor's Degree	19%	22%	12%	9%	8%
	Graduate or Professional Degree	12%	16%	8%	5%	5%

Source: U.S. Census Bureau

High school and secondary education graduation rates trended in a slightly positive direction from 2013 to 2017 in STEP's service area. However, rates of citizens pursuing higher education are lower than the state and national averages. Research shows a direct correlation between education and financial stability.

Educational Attainment Among Veterans in 2017

Educational Attainment	United States	Virginia	Franklin County	Patrick County	Henry County
Less than high school graduate	6.60%	5.60%	12.40%	12.50%	12.20%
High school graduate (includes equivalency)	28.50%	21.40%	21.60%	42.70%	36.90%
Some college or associate's degree	37.10%	34.00%	39.10%	25.90%	35.10%
Bachelor's degree or higher	27.80%	39.00%	26.90%	18.90%	15.80%

Source: U.S. Census Bureau

The data shown above indicates that high school dropout rates among veterans in STEP's service area are more than twice the state average. Veterans in Patrick and Henry counties are also far less likely to earn a bachelor degree or higher.

Kindergarten Readiness

Kindergarteners whose fall PALS-K scores were below kindergarten readiness levels (2016-2017)

	Virginia	Franklin County	Patrick County	Henry County
Percent of Kindergartners	14.6%	15.0%	20.0%	18.0%

Source: Kids Count Data Center

PALS-K is a measure of children's knowledge of several important literacy fundamentals. PALS-K provides a direct means of matching literacy instruction to specific literacy needs and provides a means of identifying those children who are relatively behind in their acquisition of these fundamental literacy skills. The data indicates that the number of children in STEP's service area that are not prepared to enter Kindergarten far exceeds the state average.

4 Year Olds Served by Virginia Preschool Initiative

Location	2014	2015	2016	2017	2018
Franklin County	200	200	165	165	153
Patrick	65	69	74	54	155
Henry	272	256	279	279	282

Source: Kids Count Data Center

The Virginia Preschool Initiative (VPI) provides state funds to schools and community-based organizations to provide quality preschool programs for at-risk four-year-olds unserved by the federal Head Start program. The purpose of the grant is to reduce disparities among young children upon formal school entry and to reduce or eliminate those risk factors that lead to early academic failure. Related research shows that people who have participated in VPI as children are less likely to be held back in school, require fewer special-education placements, have higher graduation rates, experience lower crime and unemployment rates, have less reliance on welfare, and enjoy higher lifetime wages.

Head Start and Early Head Start

Head Start programs promote school readiness of children from birth to age five from low-income families by supporting their development in a comprehensive way. These programs provide comprehensive early childhood education, health, nutrition, and parent involvement services. Early Head Start (EHS) serves infants and toddlers under the age of 3, and pregnant women. EHS provides intensive comprehensive child development and family support services.

Franklin County Early Head Start/ Head Start Enrollment

Early Head Start					
	2014	2015	2016	2017	2018
<1 year old	17	9	12	7	5

4 years old	42	32	27	30	40

Source: STEP Program Data

STEP is currently funded for a combined total of 218 student positions (infant up to age 5) in our HS/EHS programs each year (although as families move in and out of our communities the actual number of students served each year typically exceeds this number).

Percent of Children K-12 Enrolled in Public School

Location	2013	2014	2015	2016	2017
United States	89.9%	89.9%	89.9%	89.8%	89.7%
Virginia	90.4%	90.3%	90.10%	89.9%	89.8%
Franklin County	90.8%	87.4%	86.9%	86.7%	88.2%
Patrick County	96.1%	99.3%	97.7%	97.6%	96.8%
Henry County	94.0%	95.2%	94.9%	94.6%	95.1%

Source: U.S. Census Bureau

The majority of children enrolled in K-12 in STEP’s service area attend public schools. It is noteworthy that in Patrick and Henry counties, that percentage is particularly high. Public school enrollment has been fairly consistent from 2013 to 2017 and it is reasonable to conclude that this trend will continue into the foreseeable future due to lack of alternatives.

2016 Unemployment Rates

	United States	Virginia	Franklin County	Henry County	Patrick County	Martinsville
Unemployment Rate	4.9%	3.7%	3.3%	4.1%	4.4%	6.1%

Source: U.S. Bureau of Labor Statistics

Virginia has a significantly lower unemployment rate than the rest of the country and Franklin County has a still lower unemployment rate at just 3.3%. However, Patrick and Henry counties have not been as successful employing their residents and Martinsville has been particularly problematic in this regard with an unemployment rate 1.2% higher than the national average. Long term unemployment is a clear path to poverty.

Underemployment in 2018

	United States	Virginia	Franklin County	Patrick County	Henry County
Underemployment Rate	8.5%	7.9%	4.2	12.5	12.5

Source: Americas Health Rankings.org, Virginia Economic Development Partnership

Focusing solely on the employed versus the unemployed obscures a large portion of the workforce that is underemployed. That is, someone who is involuntarily working part-time or is overqualified for their current position. There are five types of underemployment: discouraged workers, marginally attached, part-time job holders, and under-utilized workers.

Underemployment is a social problem that affects job growth, poverty levels, business growth, career growth, and the emotional health of underemployed workers. These workers tend to spend less, which impacts business growth, poverty levels, and their emotional wellbeing. Despite having low unemployment rates this data shows that underemployment is a particular problem in Patrick and Henry counties

Employment Growth

Employment by Year	Virginia	Franklin County	Patrick County	Henry County
2014	4,022,160	25,705	7,205	21,159
2015	4,029,043	25,209	7,224	20,920
2016	4,069,139	25,190	7,553	20,865
2017	4,146,134	25,157	7,094	21,420

Source: Virginia Labor Market Information

Virginia experienced modest employment growth from 2014-2017. Employment in Henry and Franklin counties was flat during the same period while Patrick County lost about 460 jobs.

Earnings in 2017

	United States	Virginia	Franklin County	Patrick County	Henry County
Median Household Earnings	\$57,652	\$68,766	\$51,208	\$37,757	\$36,779

Source: Bureau of Labor Statistics

Median household earnings in Patrick and Henry counties are significantly lower than the state and national averages.

Required Annual Income to Offset Expenses

Required annual income (by county)	1 Adult	1 Adult 1 Child	1 Adult 2 Children	1 Adult 3 Children	2 Adults (One Working)	2 Adults (One Working) 1 Child	2 Adults (One Working) 2 Children	2 Adults (One Working) 3 Children	2 Adults	2 Adults 1 Child	2 Adults 2 Children	2 Adults 3 Children
Franklin County	\$21,945	\$51,082	\$58,775	\$73,686	\$36,802	\$44,651	\$50,881	\$56,342	\$36,802	\$54,685	\$65,237	\$75,018
Patrick County	\$21,876	\$49,606	\$57,298	\$71,298	\$36,679	\$43,174	\$49,404	\$54,482	\$36,679	\$53,209	\$63,760	\$73,158
Henry County	\$21,876	\$49,606	\$57,298	\$71,580	\$36,528	\$43,174	\$49,404	\$54,236	\$36,528	\$53,209	\$63,760	\$72,912

Source: U.S. Census Bureau

The cost of living in Franklin County is modestly higher than the balance of STEP's service area which is reflected in a higher required annual income to offset expenses.

Median Household Income in 2017

Median Household Income	United States	Virginia	Franklin County	Patrick County	Henry County
Projected Median Household Income (2023)	\$70,341	\$84,449	\$61,514	\$44,782	\$43,578
Estimated Median Household Income (2018)	\$61,399	\$73,111	\$54,554	\$39,801	\$38,724
Census Median Household Income (2010)	\$50,021	\$60,897	\$44,786	\$35,102	\$33,939
Census Median Household Income (2000)	\$42,305	\$46,865	\$38,162	\$28,933	\$32,101
Projected Annual Growth (2018-2023)	2.9%	3.10%	2.6%	2.5%	2.5%
Historical Annual Growth (2010- 2018)	2.8%	2.50%	2.7%	1.7%	1.8%
Historical Annual Growth (2000- 2010)	1.8%	3.00%	1.7%	2.1%	0.6%

Source: REGIS Online

The median household income (historical and 2018 projection) in all of STEP’s service area falls well short of the state average (as does the growth rates). When cross-referenced with the ‘Required Annual Income to Offset Expenses’ above, it is apparent that several family types are, on average, not making enough money to support their families. This is most evident among single parents and families with multiple children. In example, the annual income of the average single parent household with one child in Patrick County is nearly \$10,000 short of meeting its annual expenses.

Means of Commuting to Work (2017)

Means of Transportation to Work	United States	Virginia	Franklin County	Patrick County	Henry County
Car, truck, or van	85.60%	86.60%	89.50%	96.30%	95.90%
Drove alone	76.40%	77.30%	79.40%	88.10%	87.30%
Carpooled	9.20%	9.30%	10.10%	8.20%	8.60%
Workers per car, truck, or van	1.06	1.06	1.07	1.05	1.05
Public transportation (excluding taxicab)	5.10%	4.40%	0.50%	0.00%	0.60%
Walked	2.70%	2.40%	2.10%	1.10%	0.30%
Bicycle	0.60%	0.40%	0.10%	0.00%	0.00%
Taxicab, motorcycle, or other means	1.20%	1.30%	1.40%	0.60%	0.90%
Worked at home	4.70%	4.80%	6.40%	2.00%	2.30%

Source: U.S. Census Bureau

The most common means of getting to work in STEP’s service area is personal auto and driving alone is far more common than carpooling. The lack of available public transportation in Henry County and the near void of public transportation in Franklin and Patrick counties is evidenced in these statistics. The lack of available transportation can negatively impact employment opportunities.

Average Length of Commutes in 2017

	United States	Virginia	Franklin County	Patrick County	Henry County
Mean travel time to work (minutes)	26.4	28.2	30.2	28	23.6

Source: U.S. Census Bureau

The average commute times suggest that many residents work outside of their county of residence. Long commutes and the added costs associated with them limit other opportunities such as time with family, home improvement, education, etc.

Vehicle Ownership in 2016

	Franklin	Patrick	Henry	Virginia
No vehicles in household	3%	6%	5%	8%
1 vehicle per household	12%	17%	19%	32%
2 vehicles per household	28%	30%	33%	40%

Source: U.S. Census Bureau

Residents of Franklin, Henry, and Patrick counties have fewer vehicles when compared to state averages. This problem is compounded given the limited availability of public transportation in these areas (only Martinsville has a traditional public bus system).

Places of Work in 2017

Place of Work	United States	Virginia	Franklin County	Patrick County	Henry County
Worked in state of residence	96.3%	91.2%	98.9%	81.1%	92.2%
Worked in county of residence	72.4%	48.5%	56.2%	53.6%	54.7%
Worked outside county of residence	23.9%	42.7%	42.7%	47.5%	37.5%
Worked outside state of residence	3.7%	8.8%	1.1%	18.9%	7.8%

Source: U.S. Census Bureau

Nearly 20% of workers in Patrick County are “out-commuters,” employed outside of Virginia (largely in neighboring North Carolina).

Income By Service Area

Household Income Levels

Income Level	United States	Virginia	Franklin County	Patrick County	Henry County
Median Household Income	\$61,399	\$73,111	\$54,554	\$39,801	\$38,724
Less than \$10,000	6.7%	5.5%	7.1%	8.1%	8.4%
\$10,000 to \$14,999	4.9%	3.8%	6.7%	9.9%	9.5%
\$15,000 to \$24,999	9.8%	7.8%	9.7%	16.9%	15.5%
\$25,000 to \$34,999	9.5%	7.9%	11.5%	12.0%	14.6%
\$35,000 to \$49,999	13.0%	11.7%	14.1%	14.5%	16.4%
\$50,000 to \$74,999	17.7%	17.1%	19.8%	17.9%	17.4%
\$75,000 to \$99,999	12.3%	12.8%	12.6%	11.0%	9.0%
\$100,000 to \$149,999	14.1%	16.4%	11.8%	6.5%	6.5%
\$150,000 to \$199,999	5.8%	7.8%	3.7%	2.3%	1.5%
\$200,000 or more	6.3%	9.2%	3.0%	0.8%	1.2%

Source: U.S. Census Bureau

Patrick and Henry counties have a disproportionately higher percentage of households with low incomes (under \$25,000) and STEP's service area collectively has a disproportionately lower number of households with high incomes (over \$100,000).

Cost of Living in 2015

	Franklin County	Patrick County	Henry County
Housing	\$8,724	\$8,208	\$8,187
Food	\$8,955	\$8,986	\$8,470
Child Care	\$13,001	\$10,433	\$10,350
Transportation	\$14,970	\$14,315	\$13,889
Health Care	\$13,527	\$12,418	\$12,418
Other Necessities	\$7,132	\$6,936	\$6,720
Taxes	\$10,168	\$8,612	\$8,214
Annual Total Costs	\$76,477	\$69,909	\$68,247

Source: Economic Policy Institute Family Budget Calculator

Taxes and child care costs are higher in Franklin County than in Patrick or Henry counties. Together these yield a higher annual cost of living. This data does not include savings such as a college fund.

Percentage of Population Receiving TANF Benefits

	2010	2012	2014	2015	2017
United States	2.5	2.7	2.8	2.8	2.6
Virginia	1.8	2	2.1	2.1	2
Franklin County	2.8	3.1	2.3	1.5	1.8
Patrick County	1.7	2.7	4	5	5.3
Henry County	3	3.3	3.5	3.3	3.1

Source: U.S. Census Bureau

The Temporary Assistance for Needy Families or “TANF” program, assists families with children when the parents or other responsible relatives cannot provide for the family's basic needs. The Federal government provides grants to States to run the TANF program for which participation is time limited. It is noteworthy that funding for this program has not been increased since it was created by the federal government in 1996. The number of needy families in Henry County exceeds the state average. The number in Patrick county is more than twice the state average and is growing.

Families Receiving Social Security Income in 2018

Family Type	United States	Virginia	Franklin County	Patrick County	Henry County
All Families	6.70%	5.40%	4.70%	10.30%	8.80%
Married-couple Families	4.20%	3.30%	3.80%	6.70%	5.70%
Female householder, no husband present	16.10%	13.90%	8.80%	15.40%	18.70%

Source: U.S. Census Bureau

On average, more families in Patrick and Henry counties receive Social Security than the state or nation. Female householders with no husband are the greatest consumers of this benefit.

Tax Credits and STEP's VITA Program

	2015	2016	2017
# of Federal Returns Prepared	378	595	507
Average Federal Return Amount	\$1,407	\$1,456	\$1,446
# Eligible for EITC	132	202	181
Average EITC Refund	\$1,330	\$599	\$552
# Eligible Child Tax Credit	49	28	35
Average Child Tax Credit	\$1,112	\$560	\$678
Average Gross Income	\$15,791	\$18,503	\$19,664

Source: STEP Program Data

The federal Volunteer Income Tax Assistance (VITA) program ensures that poor families have access to the Earned Income Tax Credit (EITC) and the Child Tax Credit (CTC), two tax provisions that target low- and moderate-income taxpayers. Both the EITC and the CTC significantly reduce taxes on low- and middle-income families with children. Adding the amount of the EITC and CTC to family income reduced the number of people in poverty by almost six million in 2011 (Hotz and Scholz 2003; Eissa and Hoynes 2006a; and Meyer 2010). Over half of the individuals moved above the poverty threshold were children. STEP manages the VITA program in Franklin and Patrick counties. Last year, STEP prepared 507 Federal returns. Of those, 181 were eligible for the EITC and 35 were eligible for the CTC. The average credits for the EITC and CTC were \$552 and \$678, respectively.

Poverty & Banking in 2018

	United States	Virginia	Franklin County	Patrick County	Henry County
Liquid Asset Poverty Rate (Cash or cash equivalent on hand)	43.5%	30.8%	34.7%	44.5%	43.4%
% of Unbanked Households	5.1%	4.6%	6.6%	6.8%	9.1%
% of Underbanked Households	18.7%	19.7%	15.9%	22.5%	18.3%

Source: Prosperity Now

The liquid asset poverty rate refers to the percent of households without sufficient liquid assets to live at the poverty level for three months in the absence of income. Residents in STEP's service area are financially vulnerable and are less likely to take advantage of traditional banking resources. Additionally, they have less savings in the event of an emergency. Unbanked households may not have enough money to open an account.

Nutrition by Service Areas

Free and Reduced Lunch in 2017

	Free Eligible	Free %	Reduced Eligible	Reduced %	Total Free/ Reduced Eligible	Total Free/ Reduced %
Franklin County Public Schools	3,663	1%	319	0%	3,982	1%
Patrick County Public Schools	1,103	46.5%	162	6.83%	1,265	53.3%
Henry County Public Schools	6,371	85.0%	0	0%	6,371	85.0%

Source: Virginia Department of Education

Children from low-income families are eligible for free or reduced-price school meals. Participating schools receive federal funds (reimbursements) for each breakfast and lunch served. In Henry County 85% of students are eligible for free or reduced lunches.

SNAP Participation in our Community

Location	2012*	2013	2014	2015	2016	2017
Franklin County	4,544	4,529	4,408	4,217	4,018	3,722
Patrick County	1,795	1,686	1,564	1,537	1,472	1,334
Henry County	8,680	8,911	8,318	8,210	7,898	5,464

Source: Annie E. Casey Foundation
 * SNAP eligibility guidelines revised

The Supplemental Nutrition Assistance Program or “SNAP” offers nutrition assistance to eligible, low-income individuals and families and provides economic benefits to communities. SNAP is the largest program in the domestic hunger safety net. The number of households participating in the federal SNAP program in STEP’s service area and the Commonwealth as a whole have decreased gradually since 2012 however this is likely due to changes in eligibility guidelines (which have become more restrictive).

WIC Participation in our Community

	United States	Virginia	Head Start
WIC Participation	6,868,000	11,191	69

Source: U.S. Department of Agriculture/ STEP Program Data

The Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) provides federal grants to states for supplemental foods, health care referrals, and nutrition education for low-income pregnant, breastfeeding, and non-breastfeeding postpartum women, and to infants and children up to age five who are found to be at nutritional risk.

Food Insecurity in 2016

	United States	Virginia	Franklin County	Patrick County	Henry County
% of citizens that are food insecure	12.9%	10.6%	10.0%	12.3%	13.9%

Source: U.S. Department of Agriculture

Food insecurity is being without reliable access to a sufficient quantity of affordable, nutritious food. Food insecurity fluctuates with other needs. Henry County has a higher rate of food insecurity than the state or nation and has the highest rate in STEP’s service area.

LIFES Academy and E/HS Meals Provided

	2014	2015	2016	2017
Franklin County	27,193	37,064	37,281	36,429
Patrick County	21,866	25,335	19,663	18,330
Total	49,059	62,399	56,944	54,759

Source: U.S. Department of Agriculture/STEP Program Data

Meals provided for LIFES Academy, Head Start, and Early Head Start include breakfast, lunch, and snacks.

Congregate Meals for Seniors

	2016	2017	2018
Franklin County	929	1,278	1,572
Patrick County	3,959	3,855	3,183
Total	4,888	5,133	4,755

Source: STEP Program Data

STEP prepares nutritious lunches and provides educational programming and other engaging activities at various sites throughout Franklin and Patrick counties. These congregate programs are designed to provide seniors with education and information to help them live independently. STEP serves more than 5,000 meals annually to at least 170 seniors in Franklin and Patrick counties. In Henry County the Department of Senior Services provides congregate meals for seniors.

Home Delivered Meals for Seniors

	2016	2017	2018
Franklin County	13,424	12,353	13,140
Patrick County	9,878	8,387	8,022
Total	23,302	20,740	21,162

Source: STEP Program Data

STEP is a member of the national Meals on Wheels America program and delivers hot, nutritious meals prepared in its own commercial kitchens to homebound seniors 60 years and older living in Franklin and Patrick counties who have been referred by the Southern Area Agency on Aging (SAAA). Frozen meals that seniors can prepare at their convenience throughout the week are also provided, as are bagged groceries for seniors who live in remote areas. STEP serves more than 20,000 meals annually to over 100 homebound seniors in Franklin and Patrick counties. In Henry County, this service is provided by Pittsylvania County Community Action.

Health & Social Factors by Service Areas

Healthcare Coverage

With private health insurance	67.2%	75.7%	67.7%	58.8%	59.9%
With public coverage	33.8%	26.7%	36.3%	45.8%	46.2%
No health insurance coverage	10.5%	9.9%	11.2%	12.8%	11.6%

Source: U.S. Census Bureau

Residents of Patrick and Henry county utilize public healthcare coverage at rates 10-20% higher than the state and national averages. Poverty increases the risk of mental health and chronic health issues. The rates of uninsured residents in STEP's service area are higher than the state and federal rates. Patrick County has the highest rate with almost 3% more residents uninsured than the state average.

Uninsured Children in 2016

Place of Work	United States	Virginia	Franklin County	Patrick County	Henry County
No health insurance coverage (under 19 years old)	5.7%	4.9%	6.2%	6.5%	4.9%

Source: Kids Count Database

Franklin and Patrick counties have a higher rate of uninsured children than the rest of the state and nation. STEP's high school program works to connect families with medical, dental, and mental health assistance.

Health Care Centers

	Franklin County	Patrick County	Henry County
Health Centers Available	2	1	4

Source: Virginia Community HealthCare Association

The five health centers in Henry and Patrick counties are Federally Qualified Health Centers which are community-based health care providers that receive funds from the HRSA Health Center Program to provide primary care services in underserved areas. They must meet a stringent set of requirements, including providing care on a sliding fee scale based on ability to pay and operating under a governing board that includes patients. Patrick County's only hospital closed in the fall of 2017 after filing for bankruptcy protection in the summer of 2016.

Ratio of Medical Providers to Residents in 2016

	Virginia	Franklin County	Patrick County	Henry County
Primary Care Physicians	1,330:1	2,170:1	6,120:1	1,590:1
Dentists	1,570:1	5,640:1	6,090:1	1,680:1
Mental Health Providers	770:1	5,640:1	6,090:1	*

Source: County Health Rankings (2016)
 * County Health Rankings was unable to report

There are shortages of medical providers in all of STEP’s service area. Patrick County has the greatest shortage of primary care physicians while Franklin and Patrick counties both have significant shortages of dentists. The greatest need however is reflected in the numbers of mental health providers.

Medical Professional Shortages in 2017

	Virginia (Mean)	Franklin County	Patrick County	Henry County
Primary Care HPSA Score	11.6	6	17	15
Dental HPSA Score	13.5	11	20	16
Mental Health HPSA Score	13.5	17	16	17

Source: Health Professional Shortage Area Data

Health Professional Shortage Areas (HPSA) scores are rated on a scale of 1-26; the higher the score, the greater the shortage. Patrick and Henry counties have a greater shortage than the state average in every category of care. The greatest shortage of medical professionals is for dentists in Patrick County.

STEP Senior Medical Transportation

	2016	2017	2018
Patrick County	3,676	3,062	2,061

Source: STEP Program Data

Area Agencies on Aging provide services established and funded through the federal Older Americans Act. Some services are designed for the care of frail or disabled elders. Others are intended to keep relatively healthy people strong and active. The Southern Area Agency on Aging (SAAA) and the Patrick County Board of Supervisors fund STEP’s medical transportation program for seniors in Patrick County. This service is performed in Franklin and Henry counties by Franklin County Department of Aging and Henry County Parks and Recreation, respectively. The numbers shown above reference the number of transportation trips, not unique clients.

Adult Obesity in 2011

	United States	Virginia	Franklin County	Patrick County	Henry County
Percent of Adults with BMI above 30	33%	28%	29%	30%	31%

Source: Family Healthy Rankings

Obesity rates among adults in STEP’s service area are essentially similar to state and national rates. There’s a correlation between poverty and limited access to healthy foods and a greater abundance of unhealthy foods. This correlation leads to a prevalence of obesity in those living in poverty.

Air Quality in 2014 (Measuring Particulate Matter)

	United States	Virginia	Franklin County	Patrick County	Henry County
Annual ambient concentration of PM2.5 (in µg/m3)	11.1	8.2	9.4	9.1	9.7

Source: Center for Disease Control and Prevention

According to the Center for Disease Control and Prevention (CDC), a concentration of PM2.5 above 12 is considered to be the level at which particulate matter begins negatively affecting human health. By this measure, STEP’s service area has sufficient air quality.

Crime by Community

Community	2017			2016			2015		
	Crimes against People	Crimes against Property	Crimes against Society	Crimes against People	Crimes against Property	Crimes against Society	Crimes against People	Crimes against Property	Crimes against Society
Franklin County	593	1,261	586	651	1,147	468	479	1,075	456
Patrick County	166	383	87	142	359	181	132	319	61
Henry County	666	2,095	458	646	2,069	330	559	1,892	349

Source: Virginia State Police

Crimes against property is on an increasing trend throughout STEP’s service area, most noticeably in Franklin and Henry counties. Crimes against people are increasing in Patrick County.

Drug Encounters by Community in 2017

	Emergency Department Heroin Overdoses	Emergency Department Opioid Overdoses	EMS Narcan Administration
Franklin County	25	117	27
Patrick County	6	39	22
Henry County	4	309	70

Source: Virginia Department of Health

Opioids are problematic in STEP’s service area with the greatest number of overdoses in Franklin and Henry counties.

Maternal and Child Health in 2015

	United States	Virginia	Franklin County	Patrick County	Henry County
Infant Mortality Rate (per 1,000)	5.9	5.9	7.5	8.1	9.2
Live Births	3,855,500	100,391	534	124	434
Infants with Low Birth Weight	8.2%	7.7%	7.3%	8.9%	7.4%
Teen (15-19) Birth Rate (per 1,000)	22.3	23.2	24.2	28.8	22.4

Source: Virginia Department of Health

Franklin, Patrick, and Henry counties have higher infant mortality rates than the state and the nation. Patrick County has the highest occurrence of infants with low birth weight and the highest teen birth rate. According a 2015 study conducted by the Urban Institute children in low income families are four times as likely to be in poor or fair health when compared to those at or above 400% of poverty (www.urban.org).

Children with Disabilities in 2017

	ID	SLI	ED	OHI	SLD	MD	AUT	DD
Franklin County	50	252	53	217	436	22	82	40
Patrick County	36	110	5	55	148	5	34	29
Henry County	49	225	43	194	374	24	61	74

Source: Virginia Department of Education

ID: Intellectual Disability
 SLI: Specific Language Impairment
 ED: Emotional Disturbance
 OHI: Other Health Impairment

SLD: Specific Learning Disability
 MD: Muscular Dystrophy
 AUT: Autism
 DD: Developmental Delay

There are 1,152 children with disabilities in Franklin County. The most common disability in STEP’s service area is Specific Learning Disability.

STEP Head Start & Early Head Start

Research conducted by the Brookings Institute shows that measures of social, emotional and behavioral development increase among children who participate in a Head Start program, resulting in greater self-control and self-esteem. That research also concludes that Head Start families tend to invest more in their own children years after their participation. Parents read more to their children; teach them about numbers, colors, and shapes while at home and engage more in conversation, increasing vocabulary and language skills, and fostering greater independence. Additionally, these same parents tend to spend more time with their children in positive activities. Participation in Head Start and Early Head Start programs (HS/EHS) has also been shown to improve post preschool outcomes, including increased high school graduation, college attendance, and college graduation rates when compared to students who did not participate in a school readiness program.

Prenatal support and educational services for pregnant women, childhood development, and school readiness services are available to eligible families through STEP’s E/HS programs. We also provide some home-based programs. STEP enrolls more than 200 children (infant up to age 5) in our HS/EHS programs each year.

Estimate of Eligible Families

County	Pop. 3 to 5 (HS eligible)	Pop. under 18 disabled	Pop. 3 to 5 estimated to be disabled	% of Pop. under 5 estimated to be in poverty	Pop. under 3 up to 5 estimated to be income eligible for HS	Children estimated to be eligible for HS
Franklin	542	16.10%	87	18.40%	100	187
Patrick	163	14.5	24	22.30%	36	60

Early Head Start Enrollment by Community

	2014	2015	2016	2017	2018
Franklin County	58	46	52	55	47
Patrick County	30	31	26	27	25

Source: STEP Program Data

There are only four licensed and registered childcare programs serving children under four years of age in STEP’s primary service area and only two of them provide subsidies for low-income families. Correspondingly, the children of these families are at a tremendous disadvantage in terms of accessing programs that support comprehensive child development. STEP’s EHS program provides low-income children with comprehensive child development support. This includes health and nutrition programs that enhance their ability to learn so they are prepared for their educational careers. STEP’s family-driven philosophy empowers parents to support and nurture their children while meeting other critical social and economic goals. STEP EHS enrolls 80 children each year. It is noteworthy that Henry County does not currently have an Early Head Start program.

Head Start Enrollment by Community

	2014	2015	2016	2017	2018
Franklin County	93	90	108	98	71
Patrick County	55	59	44	52	74

Source: STEP Program Data

STEP’s HS program provides a comprehensive education for three and four-year-old children that encourages parental involvement and is designed to foster healthy development and school readiness. STEP provides education, nutritious meals, and the opportunity for social, emotional, and intellectual growth that helps prepare the children for success in school and in life. Medical and dental support services are also offered. The Head Start approach serves the entire family and seeks to empower both parent and child. STEP HS enrolls 138 children each year. The Head Start program in Henry County is operated by Pittsylvania County Community Action.

STEP is funded for a combined total of 218 students (infant up to age 5) in our HS/EHS programs each year (although as families move in and out of our communities the actual number of students served each year typically exceeds this number).

VPI Enrollment by Community in 2017

	Franklin County	Patrick County	Henry County
VPI Capacity	165	84	279
VPI Enrollment	153	62	270

Source: Virginia Department of Education

Every county in STEP's service area has nearly full enrollment in the Virginia Preschool Initiative (VPI).

Community Identified Needs

The Steering Committee oversaw the collection, synthesis and analysis of the data collection process and ensured that respondents included adult program participants, parents of Head Start, Early Head Start and LIFES Academy students, taxpayers using VITA services, community organizations, community leaders, other community service agencies and their directors, as well as a broad range of area residents.

Primary Data Collection

Surveys

The survey design was based on versions used during the last two triennial strategic planning processes. As many of the questions as possible from prior years were retained in order to enable comparisons with past results. The surveys were formatted to eliminate leading questions and questions which could skew the participants' responses and were made available in English and in Spanish. Surveys were collected at 44 locations and on-line and generated 840 responses.

Stakeholder Interviews

Stakeholder interviews were conducted as one-on-one discussions with colleagues in other community service organizations, social services, education, healthcare, faith communities and local government. Participants were asked to identify the most critical unmet needs of low-income individuals in STEP's service areas. The interview questions required narrative answers and allowed for direct follow up questions aimed at identifying root causes of the problems identified and obstacles to overcoming them. A total of 62 agencies participated in this process. Respondents had a wide variety of affiliations that well represented the social fabric of this community.

Focus Groups

STEP was extremely fortunate to partner with Carilion Clinic for the purposes of conducting focus groups. Carilion has trained staff whose primary responsibility is organizing, executing and interpreting focus groups. A total of 16 focus groups were convened.

Other Community Needs Assessments

Several of STEP'S community partners who have recently completed their own needs assessments were generous in sharing their reports. This provided STEP with critical data as well as a means of comparing and evaluating indicators and conclusions within the broader scope of this region. Their partnership allowed STEP to compare trends, and to learn from their experiences in terms of setting goals and objectives as well as developing effective strategies to achieve them. We are thankful to Carilion Clinic, Pittsylvania County Community Action (PCCA), Lynchburg Community Action (LynCAG), Project Discovery (via James Madison University) and the Virginia Department of Health for their cooperation.

STEP's survey of adult community members focused on those with low-incomes, and is the cornerstone of this needs assessment and gap analysis. This was the optimal means of obtaining feedback from a broad range of people in STEP's service areas (regardless of whether or not they were utilizing STEP programs and services). It is important to again point out that STEP's primary service area encompasses Franklin and Patrick counties. However, Martinsville and Henry County were also included due to the increasing frequency of STEP services being delivered in those areas. The latter was accomplished with the advance knowledge and permission of PCCA, which is the designated Community Action Agency for that area.

Greatest Areas of Need (summary)

Based on the community needs assessment process, following are the greatest needs in STEP's service areas. Collectively, the absence or inadequacy of these resources form the basis or root causes of poverty in STEP's service area.

1. Affordable Health Care
 - More physicians, affordable care and medications, mental health and substance abuse services, dental services, healthy living education
1. Transportation
 - Community-based transportation initiatives, public transportation, medical, employment and critical need transportation, services in rural areas
2. Employment
 - Hard and soft skill training, living wage
3. Affordable Housing
 - Safe, affordable, energy efficient, accessible and age appropriate housing. Housing assistance, homeless & homeless prevention services, weatherization, resources for veterans and returning citizens
4. Education/youth services
 - High school (graduation) and post-secondary education (access), knowledge of available resources, financial literacy, college/trade school access, after school and summer, teen pregnancy awareness/education
5. Child Care
 - Early Head Start program in Henry County, after school and summer programs, services for disabled children, prenatal care
6. Food Security
 - Food deserts, access to affordable, nutritious food, stable access to food
7. Motivation/desire/commitment to escape poverty

Top Three Needs by Service Jurisdiction

In STEP's service areas health care and employment services are offered by other agencies through a community collaboration. STEP therefore directs its energies at overcoming other unmet or unaddressed needs. In each of the jurisdictions that STEP serves the top three needs are:

Franklin County

1. Education/youth services
2. Transportation
3. Affordable housing

Patrick County

1. Transportation
2. Affordable housing
3. Child care

Henry County (and Martinsville)

1. Child care
2. Affordable Housing
3. Transportation

Collectively, these community needs are represented as:

1. Safe, affordable, energy efficient and accessible housing
2. Affordable childcare
3. Transportation
4. Education/youth services

The needs that STEP has identified are consistent with the conclusions of the needs assessments of neighboring colleagues indicating that these need are at least regional. The most common threads include healthcare, education, housing and transportation.

Other health impairment	2.0	2.8	20.4	12.9
Specific learning disabilities	0.4	1.2	38.9	41.5
Speech or language impairment	37.5	45.9	14.7	18.9
Traumatic brain injury	0.1	0.1	0.3	0.4
Visual impairment	0.3	0.5	0.4	0.5

*Developmental delay is only allowable through age 9, so a 6-21 percentage cannot be calculated.

Explanatory Note: The percentage represents a distribution of children with disabilities (IDEA) by disability category for age ranges 3 through 5 and 6 through 21 (excluding children with developmental delays). For this calculation, the denominator is all children with disabilities (IDEA) for the specified age range, excluding developmental delays for ages 6 through 21. National data represent the US and Outlying Areas. Data reported for IDEA 2011 Child Count. (Data Source: <http://www.ideadata.org>).

EDUCATIONAL ENVIRONMENTS, AGES 3 THROUGH 5

Disability Category	CWDs Attending and Receiving the Majority of Special Education and Related Services in a Regular Early Childhood Program State (%)	CWDs Attending and Receiving the Majority of Special Education and Related Services in a Regular Early Childhood Program Nation (%)	CWDs Attending a Separate Special Education Class, Separate School, or Residential Facility State (%)	CWDs Attending a Separate Special Education Class, Separate School, or Residential Facility Nation (%)
All disabilities	33.5	41.7	26.8	26.9
Autism	25.8	33.4	46.9	48.7
Deaf-blindness	x	35.4	x	45.9
Developmental delay	33.6	42.4	39.3	35.7
Emotional disturbance	x	45.5	x	25.5
Hearing impairment	33.5	36.1	x	42.9
Intellectual disability	x	32.2	x	49.3
Multiple disabilities	13.5	24.0	x	52.3
Orthopedic impairment	x	41.6	29.3	37.3
Other health impairment	x	43.6	x	30.9
Specific learning disabilities	x	52.0	x	14.2
Speech or language impairment	34.7	42.9	x	14.4
Traumatic brain injury	x	32.4	40.0	35.8
Visual impairment	37.3	43.1	19.6	35.0
<p>Explanatory Note: The percentage of children with disabilities (IDEA) in the state and nation by disability category attending a regular early childhood program, or a separate special education class, separate school, or residential facility. Note that this table does not include all reported preschool educational environment categories. The denominator is all children with disabilities (IDEA), ages 3 through 5, in the specified disability category. National data represent the US and Outlying Areas. Data reported for IDEA 2011 Educational Environment. (Data source: http://www.ideadata.org).</p>
